#### Slowly Changing Dimension Wizard

##### Select a Dimension Table and Keys

Select a dimension table to load and map columns in the transformation input to columns in the dimension table.

## Slowly Changing Dimension Columns

Manage the changes to column data in your slowly changing dimensions by setting the change type for dimension columns.

## Fixed Attribute

Select this type when the value in a column should not change. Changes are treated as errors.

## Changing Attribute

Select this type when changed values should overwrite existing values. This is a Type 1 change.

## Historical Attribute

Select this type when changes in column values are saved in new records. Previous values are saved in records marked as outdated. This is a Type 2 change.

Select a change type for slowly changing dimension columns.

Dimension Columns	Change Type
Name	Changing at...
City	Changing at...
State	Changing...

Remove

## Fixed and Changing Attribute Options

## Fixed attributes

☐ Fail the transformation if changes are detected in a fixed attribute

## Changing attributes

☒ Change all the matching records, including outdated records, when changes are detected in a changing attribute
